

**POWERING OUR STATE THROUGH
RELIABLE ELECTRICAL INFRASTRUCTURE**

OUR VALUES

COMMITMENT

Assurance, responsibility and promise to deliver effective solutions for our clients.

EXCELLENCE

To be a supplier of choice, distinct, pride in high-quality output and merit in going above and beyond for our clients.

SAFETY

Provide protection, care and wellbeing and continue to act on our number one priority, the safety of our workers, contractors and everyone onsite.

INTEGRITY

Honesty, prepared, reliable and doing what we say we do.

OUR VISION

To be a leading, trusted, and respected competitor and employer in powering our state through the delivery of reliable and sustainable electrical infrastructure.

OUR MISSION

We deliver reliable and sustainable electrical infrastructure through supply, installation, maintenance, and repair. We are a leading, trusted and respected supplier to clients in the mining, government, civil, construction and land development sectors. Our solid network of dedicated employees that share our vision and encompasses our company values in building and maintaining high-quality outcomes for our clients.

We've completed projects with:

RioTinto

ABOUT US

Oracle Energy provides a full range of power solutions, including supply, installation, repair and maintenance of efficient and consistent electrical infrastructure services for transmission, distribution, substation and underground projects. Our services incorporate all associated assets in high- and low-voltage networks. We help find the best-fit solutions and deliver reliable and sustainable electrical infrastructure to make your project a reality.

We support new and existing underground and overhead power infrastructure by performing maintenance and emergency repairs. Through high-quality service, we help minimise downtime to keep your operations up and running and connected reliably.

Established in 2001, our organisation is a leading, trusted and respected supplier to clients in the mining, government, civil, construction and land development sectors.

We provide high-quality outcomes for our clients with a solid network of experienced, dedicated employees who share our vision and encompass our company values in building and maintenance.

Oracle Energy is Western Australian-owned, operated and regionally based in Geraldton. We work in regional, remote and metropolitan areas throughout Western Australia.

**BASED IN GERALDTON,
SERVICING WESTERN AUSTRALIA**

WHAT WE DO

Oracle Energy is Western Australian-owned, operated and regionally based in Geraldton. We work in regional, remote and metropolitan areas throughout Western Australia.

Powerline infrastructure and maintenance

We specialise in designing, procuring, and constructing low- and high-voltage assets.

HV and LV cable jointing

Our technicians specialise in all aspects of cable jointing, including XLPE and Paper lead.

Underground network installations

Small subdivisions to large subdivisions

Electrical installations

Ranging from LV terminations to MCC upgrades.

Testing and commissioning

Specialise in commissioning high-voltage assets.

Deep earthing

Drilling, installation and testing of earthing systems

Decommissioning

Removing electrical infrastructure past its operating life following industry standards and client protocols. Reusing and recycling materials as appropriate.

OUR TEAM

Our dedicated team of industry professionals are experienced in a range of methods to apply to any situation.

Our team consists of Project Managers, Supervisors, WHS coordinators, Linesmen, Electricians, HV Jointers, Plant Operators, management and administration to execute your project on time and within budget.

Together, we are committed to:

- Build quality installations that endure a lifetime,
- Be leaders in our industry and an employer of choice,
- Deliver high-quality customer service with clear communication and expectations,
- Continuous improvement through team training and professional development,
- Quality assurance,
- Environmental management,
- Effective governance, and
- Prioritising safety through a proactive approach to planning, action, mitigating risk, communication and wellbeing.

We work with a network of regionally based subcontractors and suppliers located throughout Western Australia who are aligned with our values and commitments.

Part of our work culture:

Awareness

Planning

Cohesive Team

Fit for Work

Risk Management

Training & Inductions

OUR EQUIPMENT

We have a wide range of plant and equipment that is well-maintained and of high quality. We do offer long or short-term wet hire options.

- Prime Movers & Trucks
- Cranes
- Borer
- Excavators
- Drill Rig (Providing Deep Earthing)
- Elevated Work Platforms
- Backhoe/Loader

OUR COMMITMENT TO SAFETY

The safety and well being of our employees is our top priority.

Our dedication to providing a secure and healthy work environment is reflected in our commitment to achieving zero harm and our detailed policies and procedures.

These protocols stem from a wealth of experience in the industry, extensive consultation and appropriate supervision combined with the continuous training and development of our workforce.

Every effort is made to ensure that our work practises align with the “Workplace Health and Safety Act” along with all legislation, on site policies and industry standards.

OUR PROJECTS

Our most recent projects include:

- Constructing HV/LV backup generator for power Geraldton's main water supply.
- Construction, commissioning of power line works at Cataby.
- Replacement of HV transformer and upgrade of substation to power chemical plant.
- Upgrade, replace HV reticulation to Geraldton Port.
- Installation of pump stations and dewatering skids for mining purposes.
- Upgrades to powerlines located throughout the Midwest region.

CATABY, WA
POWERLINE WORKS FOR ILUKA.

**We invite the opportunity to discuss
your next project and how we can work
together to make it a reality.**
